Dear interested party:

The Council has developed a preliminary report on the implementation indicators available for fish and wildlife using information from the PISCES database. The indicators will track progress in the categories of land, water, passage, and screens. Specifically, the Council is seeking feedback on the use of the data and suggestions on how to improve the quality or clarity of the indicators.

The Council is accepting public input on these indicators through December 3, 2008.

You can access the document at <http://www.nwcouncil.org/fw/program/hli/>. Please send your comments to Stacy Horton [shorton@nwcouncil.org](mailto:shorton@nwcouncil.org).

Sincerely,

Stephen L. Crow  
Executive Director
